Thank you for your support!

ABOUT THE EWINGS CANCER FOUNDATION OF CANADA

Ewing sarcoma is an obscure and highly aggressive bone cancer occurring in children, adolescents and young adults. Early detection, along with aggressive treatment and greater knowledge are vital for a positive outcome.

The Ewings Cancer Foundation of Canada is dedicated to finding a cure through genetic research, to create early detection tests and establish more effective treatment options. Funds raised go to The Ewings Cancer Foundation of Canada to support Ewing sarcoma Research.
